Space is limited to 12 per session.  
Register today!

**COST: FREE**

Training focused on the new features in SMART Notebook Math Tools Software. (Windows OS only)

SMART Certified Trainers will show you how to:

- Create regular and irregular polygons and show side lengths, angles, and vertices
- Handwrite a math equation and convert to math text
- Enable Math Actions including graphing and solving of equations, creation of tables, shape division, and more
- Use the SMART Notebook Equation Editor
- Create your own graphs using the graphing wizard
- Use the new ruler, protractor, and compass (to snap lines, create angles, measure, etc)
- Enable the TI Graphing Calculator to import directly from TI SmartView Software

### AGENDA

10:30a – 12:00p	Morning Workshop
12:00p – 1:00p	Lunch (complimentary)
1:00p – 2:30p	Afternoon Workshop
